

ACCEPTANCE TESTING

UAT execution & report submission

Project Details

Date: 20 July 2026

Team ID:

Project Name: Networking Assistant – AI Powered Networking Companion

Maximum Marks: 4 Marks

Purpose of Document

This report summarizes the test coverage and outlines any open issues at the User Acceptance Testing (UAT) release time for the **Networking Assistant** project. It provides an overview of the testing conducted, defect status, and overall assessment of the system's readiness.

Defect Analysis

Severity	Resolved/Closed Bugs	Open Bugs
Severity 1 (Critical)	5	0
Severity 2 (High)	12	1
Severity 3 (Medium)	25	3
Severity 4 (Low)	30	5
Subtotal	72	9
Total	81	

Test Case Analysis

Module	Total Cases	Not Tested	Fail	Pass
Event Analysis	50	2	3	45
Topic Generation	75	5	6	64
Fact Checking	60	3	4	53
Feedback Mechanism	40	1	2	37
History Log	30	0	1	29

Conclusion and Final Report

The User Acceptance Testing for the **Networking Assistant** project has been successfully completed. The core functionalities, including Event Analysis, Topic Generation, Fact Checking, Feedback, and History logging, have met the acceptance criteria, with a high pass rate for executed test cases. All critical and high-severity defects have been resolved. Minor issues and lower-severity defects have been logged and will be addressed in subsequent releases. The **Networking Assistant** is deemed ready for deployment based on the UAT results.
